COCO SOLUTION

COMPANY'S *general information*

COCO Technologies was created in 2019 to facilitate the access to healthcare, transforming traditional clinics and hospital to technological centers through the implementation of software and IT applications to assure efficiency in patient's attention.

COCO's clients are healthcare facilities in Colombia, Dominican Republic, and Chile

Initial Investment
CAPEX \$USD 2.085.000

* Exchange Rate: \$4.000

Investment Mechanism
Direct investment – Business plan

Sales in the last 2 years
2020 sales: \$USD 27.000
2021 sales: \$USD 80.000

INVESTMENT *project*

COCO Solution replaces the clinics' and hospitals' traditional customer support channels with Artificial Intelligence tools like voicebots and chatbots, telemedicine and web applications so patients are available to self-manage their automatic appointment scheduling, reducing costs and increasing the patients' experience.

COCO Solution can also help healthcare centers to track the patients' journey with them
